EXPERIENCE

The Boston Consulting Group

CASABLANCA, MOROCCO
MAR 2025 - PRESENT

UX Designer

- Led end-to-end discovery and design of a crew scheduling tool for a global airline, facilitating workshops with stakeholders, data scientists, and engineers to translate complex rules-driven processes into scalable workflows for high-stakes operations; reduced repair time by ~75%, generating $18–22M in annual savings through rapid adoption.
- Designed and shipped an AI-powered logistics platform with an interactive planning and geospatial monitoring interface, reducing delays by 60%+, improving on-time delivery to 98%+, and unlocking tens of millions in annual value.
- Led design and build of an AI-powered control room interface for offshore drilling complexes, transforming real-time data and GenAI insights into actionable workflows, enabling faster diagnosis and recovery of production gaps.
- Designed an AI contract drafting platform, embedding agentic contract generation and review into core user workflows, streamlining collaboration between sales and legal teams through intuitive, automated interfaces.

Harvard Tech for Social Good

CAMBRIDGE, MA, USA
JAN 2023 - MAY 2024

Senior Product Designer

- Led a team of 3 designers to redesign an AI-powered bioacoustics platform used across 30+ countries, translating complex data into intuitive workflows supporting biodiversity research and conservation efforts.
- Performed user research and designed end-to-end experiences for data-intensive healthcare applications and government aid platforms; mentored junior designers through workshops on user-centered design practices.

Education Perfect

SYDNEY, AUSTRALIA
JUN 2023 - JUL 2023

Product Design Intern

- Led an 8-week redesign of a learning analytics interface at an EdTech SaaS startup, transforming complex datasets into actionable insights for educators to improve learning outcomes.
- Managed recurring cross-functional alignment with 8 internal stakeholders and iterated on prototypes with feedback from 20+ users via a mix of moderated and unmoderated usability tests.

EDUCATION

Harvard University

CAMBRIDGE, MA, USA
2020-2024

BA, cum laude, Computer Science & Economics
Minor in Mind, Brain & Behavior

SKILLS

EXPERIENCE DESIGN

A/B Testing, Accessibility (WCAG), Affinity Mapping, Agile Development, AI Systems Design, AI-Enabled Research, Contextual Inquiry, Cross-Functional Collaboration, Data Visualization, Design Systems, Information Architecture, Iterative Prototyping, Usability Testing, User Flows & Journeys, Wireframing

ENGINEERING

JavaScript, Python, TypeScript, React, HTML/CSS, Swift, SwiftUI, TailwindCSS

TOOLKIT

Adobe Creative Suite, ChatGPT, Cursor, Dovetail, Figma, Google Analytics, JIRA, Maze, Microsoft Office, Miro
